

Important Information Regarding your Cable Service

November 30, 2016.

RE: Termination of Comcast Bulk Video Agreement

Dear Resident,

Comcast appreciates the opportunity to provide you high quality cable programming, communication products and services that connect you to what is important in your life.

The Bulk Billing Cable Television service for the Residents at Woodstream Falls expires on **December 30, 2016**. This will require you to restart cable services in your own name if you wish to continue receiving service. Comcast apologizes for any inconvenience you may experience in this process.

We ask that you sign up for service no later than **December 30, 2016**. In order to continue with uninterrupted services or price changes, our customer service department can be conveniently contacted at 1-800-COMCAST. **Any accounts that have not called for service will be disconnected on December 30, 2016.**

Comcast offers a large selection of cable packages and additional services all available if you place your order by **December 30, 2016**. Please ask a customer service representative about the package that best fits your needs.

Please note that if you are deciding to terminate services with Comcast it is the resident's responsibility to return all equipment to your nearest Xfinity store to avoid unreturned equipment fees.

Sincerely,
Comcast
